

ENS Lyon - Organized by Cosmet'In Lyon and Skinobs

PRE-PROGRAMM

PRECLINICAL CONFERENCES – 27th January

1st Session: Pollution – Inflammation - Allergies

1. **Inaugural conference:** Overview of the roles of protection of the skin against the microparticles - CNRS - *Marc Vaucanson's team*.
2. Prevention of pollutants penetration evaluated on a living skin model - *Valérie Cenizo, L'occitane*.
3. Inflammation models for acne treatment - *Marisa Meloni, Francesca Rescigno, Elisa Caviola, VitroScreen*.
4. In vitro epidermis models to study the skin homeostasy in response to the genotoxic and aging stress* - *Jérôme Lamartine, LBTI*.
5. **Short talks** [10 min] to be confirmed by the Cosmetotest exhibitors.

2nd Session: Sun and Pigmentation

1. **Inaugural conference:** Overview of the 3D models - *Colin McGuckin, CtiBiotech*.
2. 3D scaffold Free spheroids microtissue to mitigate biais in the in vitro evaluation of dermal elastic properties - *Boris Bovelvessang, Gattefossé*
3. 3D pigmented models and solution for in vitro evaluation of dermocosmetics - *Amélie Thepot, Labskin*.
4. Overview of the solutions for the in-vitro UV evaluation - *Sébastien Miksa, HelioScreen*.
5. **Short talks** [10 min] to be confirmed by the Cosmetotest exhibitors.

3rd Session: Test of the Content-Contenair Interaction

1. **Inaugural conference:** A specific cosmetic toxicological risk management protocol consortium intended to evaluate cosmetic packaging/formula - *Gilles Gauthier, Charlotte Thevenet.*
2. In-silico analysis for safety evaluation of dermocosmetics - *Paul Thomas, Carole Charmeau, KREATiS.*
3. Biotests as useful tools to assess hazard of complex mixture from cosmetic packaging – *Dijon, Isabelle Severin.*
4. Approach of the penetration of substances* - *Yves Chevalier, LAGEPP*
5. **Short talks** [10 min] to be confirmed by the Cosmetotest exhibitors.

CLINICAL CONFERENCES – 28 January

1st Session: Gloss and Radiance of the skin and the hair

1. **Inaugural conference,** Speaker to be confirmed.
2. Skin complexion exploration « radiance, glow, transparence and other complexion secrets» - *Elodie Prestat-Marquis, Newton technologies.*
3. Gloss of the hair: How to quantify this effect? - *Pascal Sterlé, SP Equation.*
4. Evaluation of the "Skin Radiance and Complexion", what it means? Quantitative and Clinical Approaches* - *JC Pittet, ORION.*
5. Clinical scale and other evaluation perspectives* - *Sophie Mac Mary, Skin Exigence.*
6. Brightness of the Hair through the analysis of its surface* - *Jean-Jacques Servant, Eotech*
7. **Short talks** [10 min]: **PIXIENCE, MIRAVEX**, other to be confirmed by the exhibitors.

2nd Session: Barrier Function of the Skin

1. **Inaugural conference, Skin biomarkers & barrier function*** - INSERM (Marc Vaucanson)
2. **Different ways to quantify and visualize the dermocosmetics effects** (LC-OCT, TEWL...) - *Agnès Lavoix, Dermatech-Complife Group.*
3. **Raman Confocal as a key technology to identify barrier function conditions*** - *Olivier Piot, university of Reims.*
4. **The contribution of the proteomics and metabolomics analysis to substantiate Claims on barrier function improvement** - *Gilbert Skorski, Phylogene.*
5. **Relation between formulation & measure of the barrier function** - *Pascale Barlier, Cos&Co.*
6. **Short talks** [10 min] other to be confirmed by the exhibitors

3rd Session: Sensitive Skin

1. Inaugural conference: Overview of the skin conditions of sensitive skin* - *Pr Philippe Humbert*, Dermatologue.
2. Skincare products for sensitive skin: how to evaluate in vivo? - *Anne Sirvent*, Eurofins Cosmetics & Personal Care.
3. Clinical evaluation of sensitive skin through RSOM technology* - *Charlene Granier*, Ithera.
4. Skin microbiota composition as a sensitive skin revelator - *Cyrille Jarrin*, Givaudan.
5. Short talks [10 min] AYTON, other to be confirmed by the exhibitors.

*Titles of conference are not definitive

In partnership with

With the support of the Auvergne-Rhône-Alpes Region through the Cosmebooste Programme

Thank you to the Sponsors & Exhibitors
